## Selectmen's Report.

---

We, the undersigned, Board of Selectmen of the town of Palmer, make the following report of the affairs of the town that were intrusted to us for the year ending March 1, 1898:

The debt of the town March 1, 1897, according to the report of the Treasurer, was \$44,275. Since that time, in accordance with a vote of the town, additional land has been purchased for the cemetery at the Depot Village at an expense of \$3,000, this amount being borrowed from the Palmer Savings Bank, making the debt of the town \$47,275. By act of the Legislature and vote of the town we were authorized to issue bonds to the amount of \$40,000, the rate of interest not to exceed 4 per cent per annum. In response to an advertisement we received 17 bids for the loan, the highest of which, made by Boston parties, was 104 9-16, the premium amounting to \$1,825, and yielding the investor interest at the rate of 3.47 3-4 per cent per annum. We have also collected from the Boston and Albany Railroad and the State of Massachusetts, on account of the grade crossing changes at Blanchardville and Tenneyville, \$5.913. This amount, together with the premium on the bonds, was used to pay the debt in excess of the \$40,000, so that the town's indebtedness to-day is represented by forty one thousand dollar bonds bearing interest at the rate of 4 per cent per annum, and payable two each year until all are paid. There now remains in the treasury the sum of \$1,932.38, which should be appropriated for the same specific purpose at the

coming Town Meeting, so that there shall be no balance to carry forward on the books of the Treasurer.

### BURLEIGH'S CROSSING.

A conference has been held with the officials of the Boston and Albany Railroad in regard to separating the grades, which resulted in an agreement to proceed with the work at once, and it is hoped that this dangerous crossing will be abolished this season.

### FERRELL'S CROSSING.

The amount expended by the town to date for the separation of grades at this point is \$916.50. Probably one-half this amount will be returned when a final settlement is made.

### REPAIRS ON HEARSE.

An appropriation of \$85 was made for painting the Hearse, but it was found upon examination that it needed new draperies, new axletrees, and another hearse to use while the present one was undergoing repairs, for which the appropriation was insufficient, consequently no money was used for this purpose.

## HIIGHWAYS.

The Superintendent of Streets, in his report to the Selectmen, gives as a reason for the excess of expenditures over appropriations that a large amount of the appropriation was used in the earlier part of the season, and on account of the heavy rains that prevailed soon after the work was completed it was found necessary to go over a second time. The largest individual expenditures were as follows: Wilbraham

Road, \$600; Forest Lake to Ware line, \$200; Bonds-  
ville to Four Corners, \$300.

## BRIDGES.

Upon examination of the figures it will be found that this account has been overdrawn \$145.87. This is accounted for as follows:—Because of the failure of the retaining wall of the Commercial street bridge in the Depot village, caused by the high water of last spring, and the cost of the canal bridge at Three Rivers being somewhat larger than expected, although in the latter case we consider the money economically expended, as we secured a bridge whereby the cost of maintenance is reduced to a minimum, as there is no plank-ing or wood of any kind connected with the bridge, with the single exception of the sidewalks.

## MACADAM ROAD.

In compliance with the vote of the town, the Selectmen purchased the machinery to operate the crusher loaned the town by the State Highway Commission, at an expense of \$1124 for the plant complete, ready for work. The sum of \$1200 has been paid to the farmers and others for stone delivered at the crusher; the sum of \$2324 has been expended in straightening and widening the road, grading the road bed, crushing the stone, delivering it on the road, rolling and watering, making a total expense of \$3524. Of this sum \$150 has been paid the town by the Palmer and Monson Street Railway Company for their share of the expense of widening the road, making the net cost to the town \$3374 for 5540 feet of road, exclusive of the cost of crushing plant, which is now in good condition.

## Report of the Board of Health.

---

The Board of Health is pleased to report that at present there is no disease prevailing in the town. One year ago measles were quite prevalent in some of the villages, and 85 cases were reported, though none of them were fatal.

The whole number of deaths reported from March 1st, 1897, to February 28th, 1898, (including still-born, of which there were 9), was 110. Of these 30 were under 1 year of age, 26 were over 70, and two were over 90, one of these being over 98 years old. Deaths from typhoid fever numbered 3 only; diphtheria, 2, a much smaller number than usual; pneumonia, 12, a larger number than from any other disease among the adults; phthisis, (or consumption), 10; disease of heart, 9; cancer, 3; other diseases, too numerous to mention, but of great variety in name.

Deaths by months: 1897—March, 10; April, 10; May, 11; June, 6; July, 7; August, 10; September, 8; October, 9; November, 12; December, 10; 1898—January, 9; February, 8. The smallest number was in June—6, and the largest in November—12.

The board has been called to see a smaller number of cattle having tubercular disease than for several years past.

WM. HOLBROOK, *Chairman Board of Health.*

## LIBRARIAN'S REPORT

FOR THE YEAR ENDING MARCH 1ST, 1898.

The work of the Library for the past year is told in brief in the following statistics :

Number of volumes in the Library March 1, 1897,	4,628
Volumes purchased during the year,	295
Volumes donated during the year,	56
Total additions,	351
Present number of volumes,	4,979

Another order for about 125 volumes has been forwarded, which will be paid for out of last year's appropriation, but the books have not yet come to hand. When these arrive there will be in round numbers 5,100 volumes in the Library, an increase of 1,200 in the past three years.

The number of volumes loaned during the year was 16,120. Of this number 11,922 were fiction and 4,198 other classes. It is worthy of note that more than one-fourth of the books loaned belonged to other classes than fiction, and it is an encouraging indication of a growing taste for the better things in literature among the townspeople to see them using these more and more each year. Two years ago there were 2,888 volumes of these classes loaned, and last year the number was 3,758.

It may be stated with perfect truth, it is believed, that the library is quietly and steadily exercising an educational and elevating influence in the community, an influence which will be much more generally felt throughout the town the coming year, with the completion of the electric road, which will bring the villages nearer together and

give to the people in each nearly equal opportunities to avail themselves freely of the privileges of the Library.

An appropriation of \$1,000 is respectfully requested for the use of the Library.

CHAS. B. FISKE, *Librarian*.
